

Think About Your Baby's Teeth

prevent early childhood tooth decay
sweet drinks are not meant for sippy cups and bottles

You Can Prevent Early Childhood Tooth Decay

- Breastfeed
- Brush baby teeth whether breastfeeding or bottle-feeding
- Wipe gums daily from birth and then brush teeth twice daily
- Plain water only in bedtime bottle or sippy cup
- Avoid constant sipping of sweet drinks between meals *
- Stop using bottle and sippy cup by 14 months
- Take special care of your teeth during pregnancy
- Severe early childhood tooth decay can affect your baby's health

* Every sip of a sweet drink causes teeth to be attacked by cavity-causing bacteria for 20 minutes.

** Sugar content in 1 cup (8 ounces)

*Brush
Baby Teeth*
